Stipend offer for the POMOST project:

„ Participation of stem cells in muscle regeneration – cell signalling pathways”

Position: M.Sc. student

Number of stipends: 2

Institution : Department of Cytology, Faculty of Biology, University of Warsaw, Warsaw

Maximum period of stipend agreement: 7 or 8 months

Position starts on: November 1st, 2013

Stipend's amount: 1000 PLN per month (netto)

Pension insurance: No

Key responsibilities include:

1. The study will be focused on the role of Sdf-1 in stem cells migration in vitro and in vivo.
2. Examination of signal transduction pathways in response to SDF-1 treatment.
3. Analysis of results.
4. Preparation and the defence of the M.Sc. thesis under supervision of Edyta Brzóška-Wójtowicz.

Profile of candidates:

1. Students of the 1st or 2nd year of M.Sc. studies in two step.
2. Knowledge of cell biology, myogenesis, skeletal muscle reconstruction and stem cells biology.
3. Experience in the animal cell culture. Knowledge of techniques: immunocytochemistry, molecular biology.
4. High competence of English language. Any proof of competence welcomed.

Required documents:

1. CV in Polish or English
2. Motivation letter in Polish or English including description of scientific work and information about scientific activity: completed courses, conferences, research projects, publications, other achievements.

For more details about the position please contact: dr Edyta Brzóška-Wójtowicz,
edbrzoska@biol.uw.edu.pl

Project page : <http://www.biol.uw.edu.pl/pomostbrzoska/>

Principal Investigator: dr Edyta Brzóška-Wójtowicz

Address for applications: edbrzoska@biol.uw.edu.pl

Application deadline: October 23, 2013

Please include in your offer:

"In accordance with the personal data protection act from 29 th August 1997, I hereby agree to process and to store my personal data by the Institution for recruitment purposes".

The granting institution may seek to contact the best candidates only.

The second part of recruitment will be an interview – 28-31th October 2013.
